### Notable Projects

#### **Vail Resorts Inc.**

Enhanced the checkout process for suite of websites for Vail Resorts, rebuilt the functionality for user login, handling user profiles, and assigning products in shopping cart to user profiles (based on eligibility). Used Sitecore, C#/ASP.Net, and SQL Server to integrate into all resort sites through back-end, mid-tier, and front-end development.  
(*Snow.com, Vail.com, Breckenridge.com, BeaverCreek.com, KeystoneResort.com, Heavenly.com*)

#### **Vail Valley Medical Center**

Developed an interactive solution for the Vail Valley Medical Center, Shaw Cancer Center, and Vail Orthopedics by extending the open-source Umbraco CMS back-end, mid-tier and front-end using C#/ASP.Net, HTML5, CSS and jQuery. Responsible for full development lifecycle, from requirements to deployment.  
(*vvmc.com, vailortho.com, shawcancercenter.com*)
